

Above-Below Combination Flashing (2 Skylights/Windows)

VELUX produces a range of combination flashings that allow the units to be installed side by side, above and below or a combination of both. 'Combi' flashings are available with a 100 mm centre channel between the skylight or roof window in Above-Below combinations.

NB: Exactly 100mm space between each skylight

Two skylights or roof windows in an Above-Below configuration utilises a standard 'single' flashing kit EDW and combi flashing kit EKW 0007.

Above-Below Configuration

Available for FS/VS/VSE/GGU
