- 51 Extras for your blinds and shutters

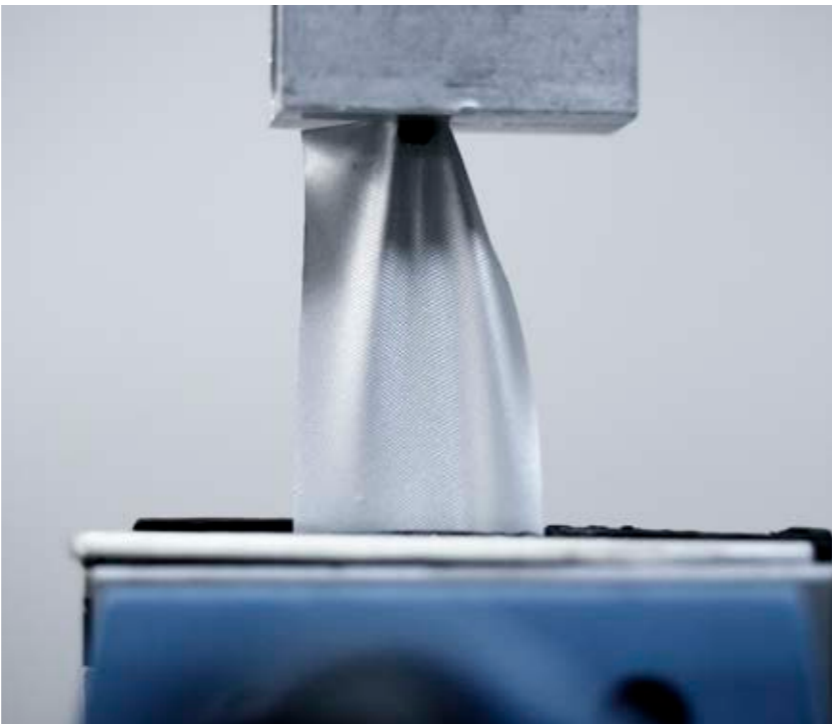

Why VELUX®

Our blinds and shutters provide a perfect fit, long-lasting performance and beautiful designs for your VELUX roof windows.

1

Designed and tested for daily life

All VELUX products are **designed and tested for real life**. Our blinds and shutters are rigorously tested by being opened and closed thousands of times and exposed to extreme weather conditions. We pull, tug, and squeeze the material to ensure your new blind retains its colour and shape through years of use. When we are happy with the design, our European factories start production.

2

Easy to install and use

Original VELUX blinds and shutters are **tailor-made for your VELUX roof windows**. This means they always fit perfectly and are easy to install – with no measuring or cutting. The elegant and slim frame design **ensures a perfect looking result**, making the blind almost invisible when not in use.

3

Your colours for your home

Enjoy an extensive choice of blind and shutter types in all styles and colours. You can even create your own customised blind with our **Colour by You** collection. And for a choice of side channels, you can now get a clean all white look.

4

For safety and sustainability

VELUX blinds have **cordless designs to ensure safety** in your home. And all our interior blinds are **OEKO-TEX® certified** and guaranteed free from harmful substances. VELUX anti-heat shutters have dual functionality by protecting your room from overheating while actively deterring break-ins.

Discover our timeless collection

From traditional loft spaces to modern kitchen extensions, the new VELUX blinds collection has an array of colours, designs and features that will suit any interior and room type.

The VELUX blind collection is developed in partnership with leading international trend experts. Choose from a large variety of fabrics and colours in classic or more modern designs.

We offer three different roller blinds with flat fabrics, two types of pleated blinds, as well as our classic venetian blinds. All varieties come in a range of colours for you to mix or match by choosing different or similar colours across your rooms and blind types.

Your choice of blind depends entirely on your personal style, the room type, and whether you are looking to create a complete blackout or light dimming effect.

Customise the colour of your blind
If you cannot find the exact colour to match your interior, the Colour by You collection gives you thousands of additional colours to choose from.

Read more on page 23 or at veluxblindsdirect.co.uk/colour

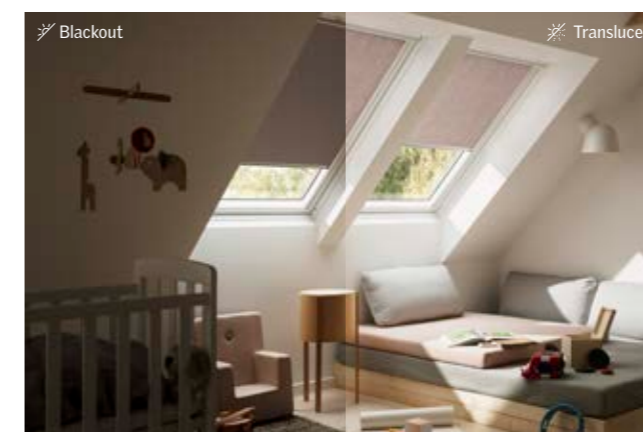

Clean all white look

VELUX blinds are available with high-quality side channels in your choice of either brushed or white painted aluminium.

Brushed aluminium works exceptionally well with our lacquered wood finish roof windows while the white painted channels become

almost invisible when paired with white VELUX roof windows. Furthermore, thanks to their UV-protection, the bright white will stay unaffected by sunlight.

The side channels are easy to install and designed to complement your VELUX roof windows beautifully.

Blackout or translucent blinds?

Blackout blinds will block any incoming light, making them a preferred choice for bedrooms and children's rooms where darkness is needed for a good night's sleep.

Translucent blinds allow a dimmed light to enter the room while effectively preventing glare. Translucent blinds are suitable for many room types like living rooms, home offices and game rooms.

Choose an exterior product for heat protection

Select your level of comfort

From manual to fully automated blinds and shutters

Enjoy seamless remote control with VELUX mains or solar powered blinds and shutters

Upgrade your mains or solar powered blinds and shutters with VELUX **Intelligent Home Control** solutions for smartphone control and fully automated heat protection

Manual operation

Simple hands-on solution

Your manual VELUX blinds come with a clever and discreet control bar that lets you adjust the blind comfortably.

The blinds run smoothly and can be positioned anywhere on the roof window.

Remote-controlled

Smarter controls with VELUX electric blinds and shutters

Choose VELUX mains or solar powered blinds and shutters to simplify your home living. These products come with a ready-to-use wall switch for remote operation. And they can easily be upgraded with a range of Intelligent Home Control solutions to cover everyone's needs.

Select solar powered VELUX blinds and shutters for your manual or solar powered VELUX roof windows. Installation is easy with no need to run cables.

Select mains powered VELUX blinds and shutters for your mains powered VELUX roof windows.

Intelligent Home Control

Let Intelligent Home Control take care of your indoor climate

Unlock the full potential of your VELUX INTEGRA® blinds and shutters with VELUX Intelligent Home Control solutions. VELUX App Control lets you control your VELUX mains or solar powered products right from your phone – at home or on the go. VELUX ACTIVE with NETATMO automatically improves your indoor climate and offers seamless control of your VELUX mains or solar powered products by smartphone or voice commands. To shield your home from excessive heat, you can simply let the system rely on the built-in indoor climate sensors and live weather forecast for automatic operation of your anti-heat blinds and shutters.

Installing your genuine VELUX blinds is easier than you think

⌚ Install your genuine VELUX blinds in 15 minutes

Installing VELUX blinds requires no measuring, trimming, cutting or extra tools. They are made for a perfect fit and everything you need is included in the box.

No need to cut or trim – just click on

Your VELUX roof windows have pre-installed mounting brackets for your blinds. Simply click on the original VELUX blind and add the side channels provided.

No need to measure

You can find your roof window's type and size on the roof window sash – see how on page 50. Then you can be sure that your new blind fits your roof window perfectly without having to take any measurements.

Easily replace your old blinds

It is straightforward to replace tired blinds with new ones from VELUX. You can still order blinds that fit almost every generation of VELUX roof window.

Set the scene for
daytime living and
restful nights with
VELUX roller blinds

For old VELUX roof window generations (VES), a ZOZ 238 installation kit is needed. For VELUX INTEGRA® GPU roof windows, a ZOZ 229S kit is needed.

Let the light in while keeping the bugs out with VELUX insect screens

Insect screen

Enjoy fresh air without the unwanted visitors. The screen is simple to operate, and can be combined with any other VELUX interior blind or exterior heat protection solution. It stows neatly away in the slim aluminium top casing when not in use.

 Quick and easy installation around VELUX roof windows.

- 100% insect-proof material
- Transparent net fabric does not obstruct your view
- Durable, wind-resistant fabric for long-lasting performance

Determine the correct size

- Measure the inner wall width (A) and height (B) to find the size code and price of your insect screen in the table below
- If you have two heights (B) or heights above 2400 mm – two insect screens and one connector set ZOZ 157 SWL are needed
- Watch a video on how to measure and determine the correct size at [velux.co.uk/ZIL](https://www.velux.co.uk/ZIL)

IMPORTANT: Insect screen size codes may differ from roof window size codes so please measure (A) and (B) and find correct size code in the table below before ordering.

		A						
		0-438 mm	439-530 mm	531-640 mm	641-760 mm	761-922 mm	923-1120 mm	1121-1285 mm

Blinds for flat roof windows – New Generation

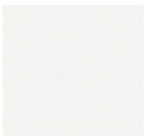

Anti-heat blind (MSU)

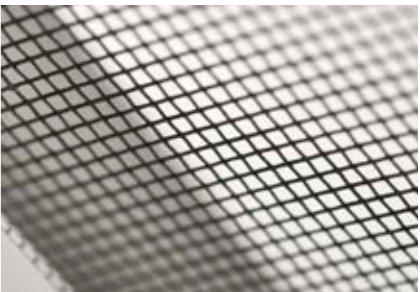

5070

Blackout blind (DSU)

4550

Insect screen (ZIU)

0000

New Generation

Blinds for curved and flat glass rooflights*

Anti-heat blind

The anti-heat blind provides light dimming and heat protection to maintain a cool and comfortable room.

- Reduces overheating
- Discreetly placed inside the rooflight
- Semi-transparent fabric for light control and sky view
- Solar powered blind with remote control
- Can be combined with an insect screen (not compatible with blackout blind)

Blackout blind

Blackout blinds block outside light for total darkness, anytime. Perfect for bedrooms and other rooms where you need complete light control.

- Perfect sleep – day or night
- Discreetly placed inside the rooflight
- 99.9% blackout
- Great for bedrooms and media rooms
- Solar powered blind with remote control
- Can be combined with an insect screen (not compatible with anti-heat blind)

Insect screen

The insect screen lets you enjoy fresh air without intruding insects. It comes in a contemporary white design. It is easy to install and simple to remove for cleaning.

- Fresh air without the unwanted visitors
- 100% insect-proof
- Durable, transparent net fabric does not obstruct your view
- Can be combined with an anti-heat blind or a blackout blind

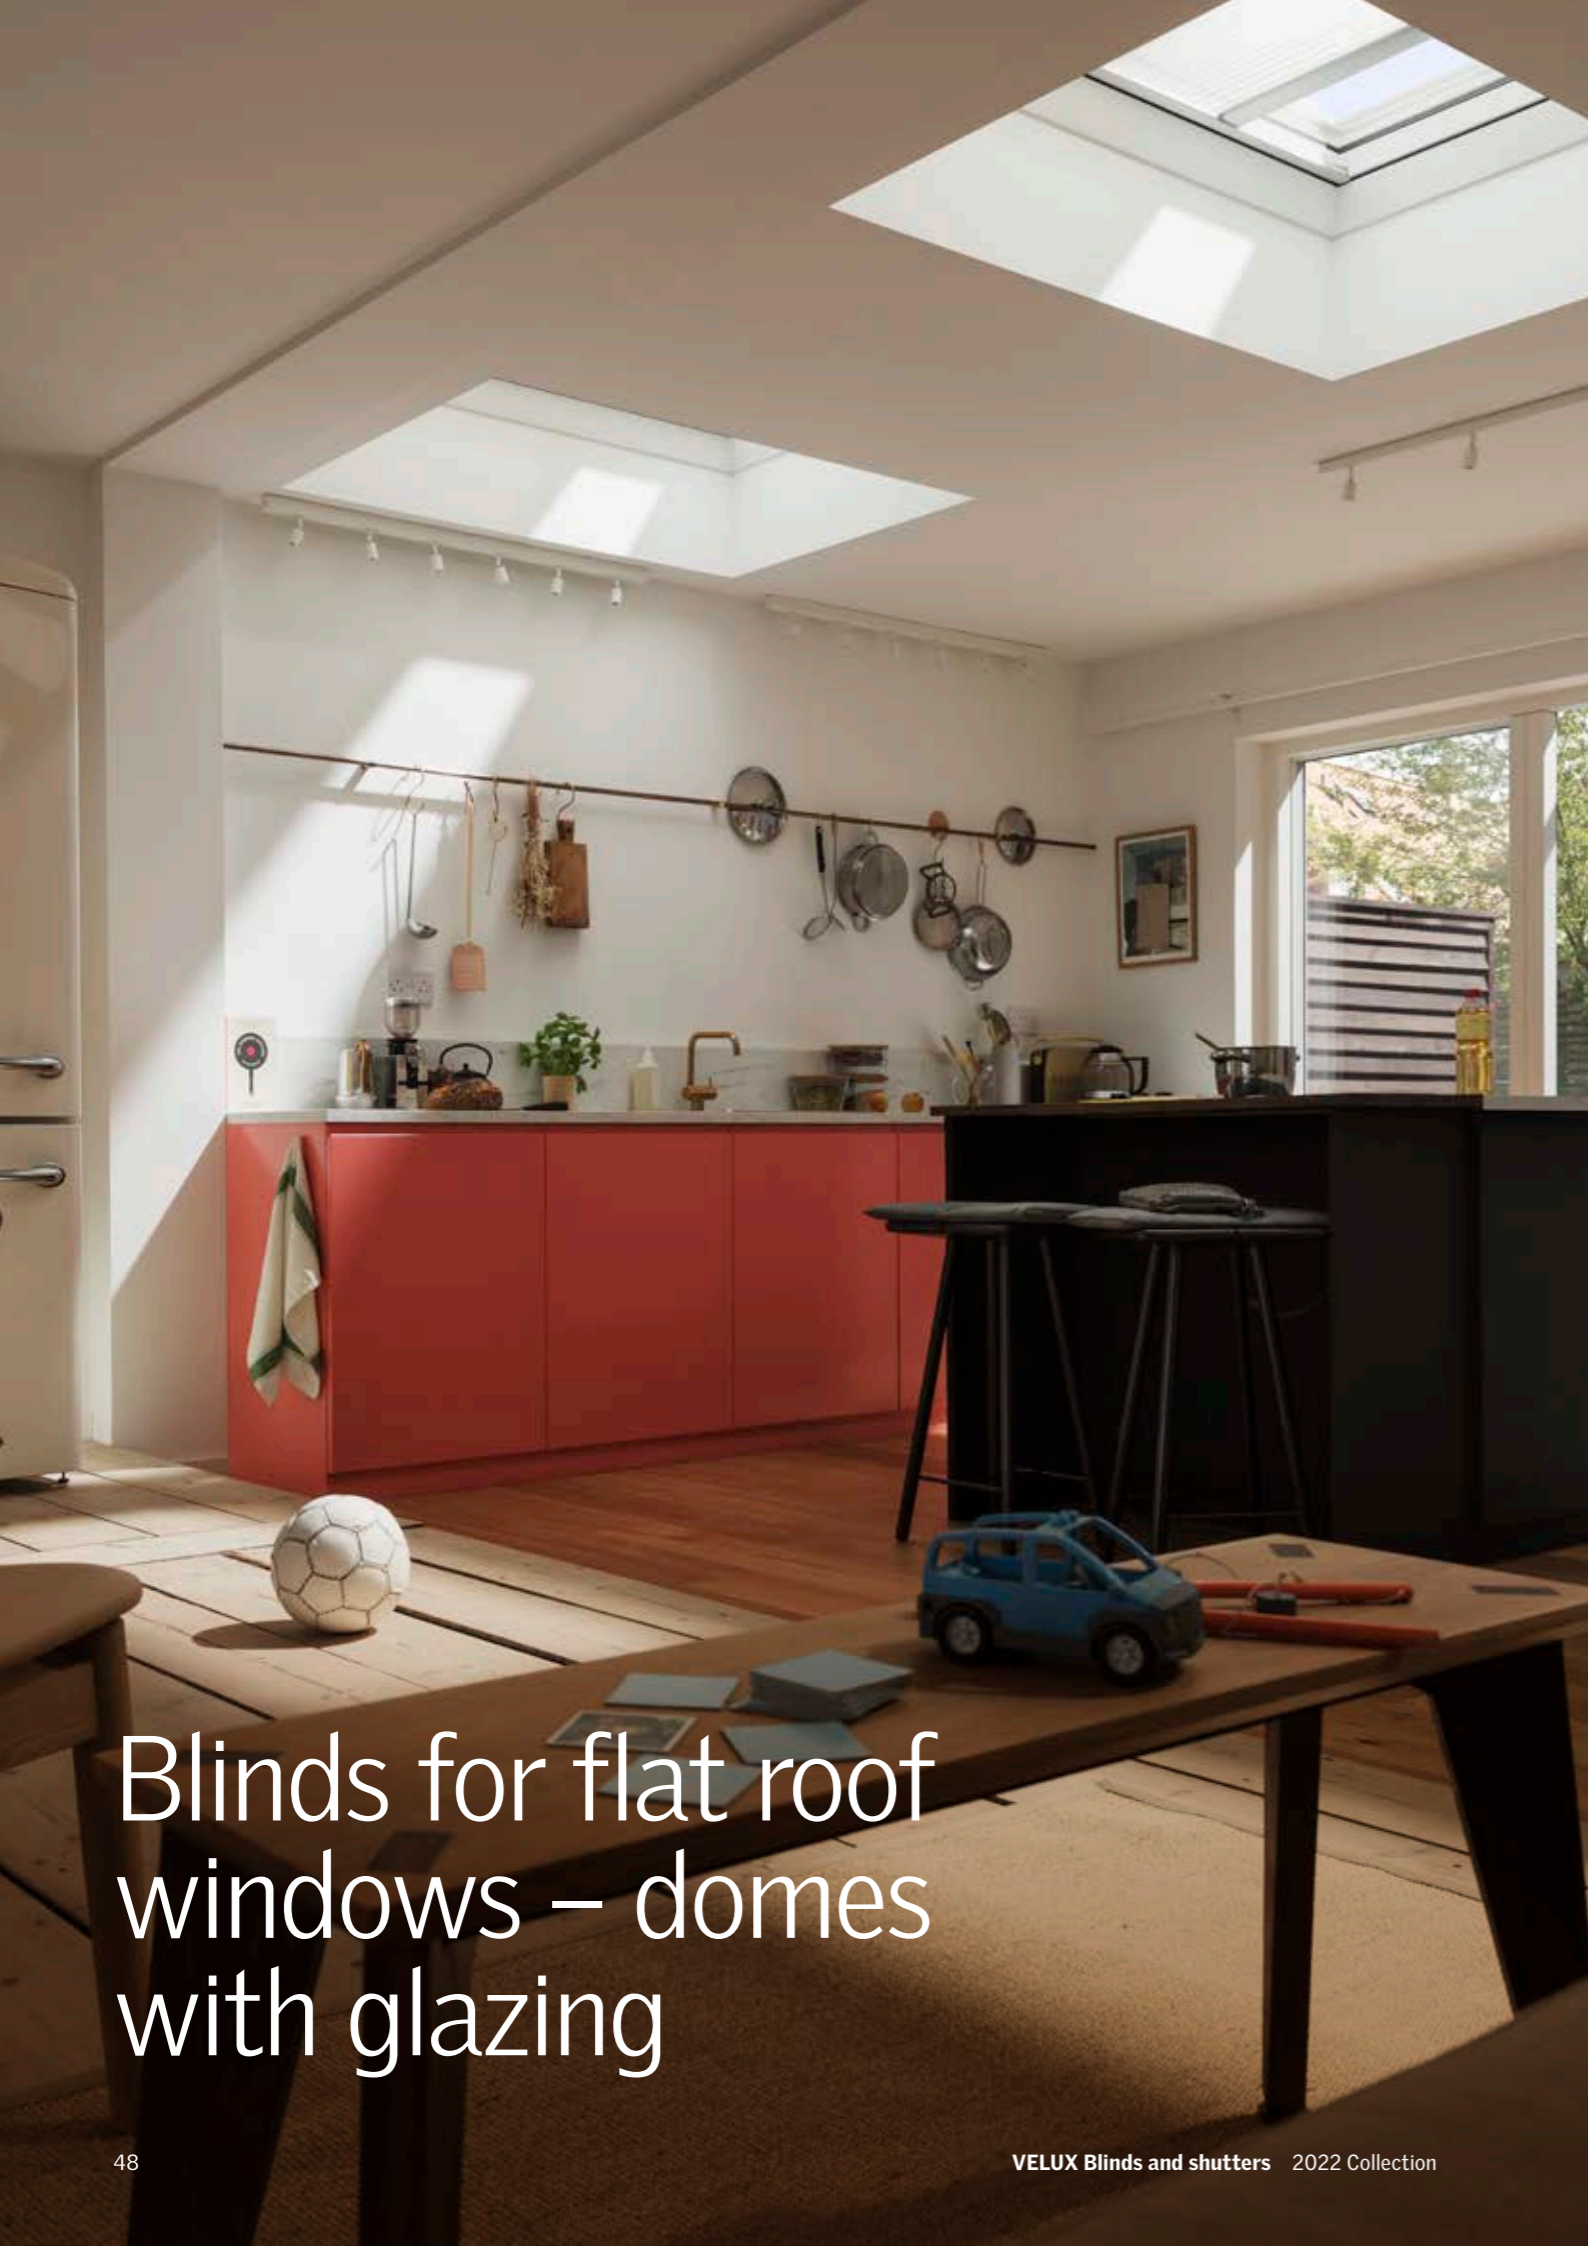

IMPORTANT:
The anti-heat blind and the blackout blind are placed inside the rooflight and mounting is therefore most convenient during the installation process.

* Suitable for New Generation flat and curved glass rooflights CFU/CVU.

Blinds for flat roof windows – domes with glazing

Blinds for domes with glazing*

Anti-heat blind

The VELUX anti-heat blind for domes with glazing provides light control and heat protection so your indoor temperature stays cool and comfortable.

- Reduces solar heating
- Semi-transparent fabric lets in natural light
- Slim, white-lacquered aluminium profiles
- Available in solar powered operation with remote control
- Suitable for domes and previous generation curved glass rooflights only. Not suitable for previous generation flat glass rooflights.

Translucent pleated blind

The VELUX pleated blind for domes with glazing provides soft daylight control in a decorative folding design.

- Softly diffuses incoming natural light
- Available in mains powered operation with remote control
- OEKO-TEX® Standard 100 certified (1076-184 DTI) – contains no harmful substances

Blackout energy pleated blind

The VELUX blackout energy pleated blind for domes with glazing darkens the room and protects against cold.

- Light dimming and insulating effect – for greater indoor comfort
- Available in mains or solar powered operation with remote control
- OEKO-TEX® Standard 100 certified (1076-184 DTI) – contains no harmful substances
