VELUX ACTIVE

SOLAR-POWERED SKYLIGHTS

CHOICE OF BLINDS
Throughout the construction industry, VELUX is a by-word for quality, a reputation that has been painstakingly built up for more than 30 years in New Zealand and for over 75 years around the world.

Perfectly designed to withstand the world’s harshest climatic conditions, all VELUX products are of the highest quality and will perform superbly for a lifetime of faultless service.

Take a look through this guide and judge for yourself. For range, quality, value, guarantees, delivery and service – VELUX is a world leader.

Every single VELUX skylight, roof window and sun tunnel has been appraised by BRANZ (up to 60°). The VELUX products ticked all the boxes... safety glazing, durability, weathertightness, energy efficiency and more!

**ALL VELUX Skylights supplied with Laminated double glazing as standard**

**High Performance double glazing**
Standard across entire skylight range

- Laminated inner panes (total 5.36mm) for added safety.
- 3mm outer pane of toughened safety glass.
- 9mm Argon filled cavity together with Low-E³ coating increases thermal performance by reducing heat flow through the pane.
- NEAT™ Coating on outer pane reduces cleaning frequency.
- Warm edge technology increases energy efficiency.

**NEAT™ Photocatalytic Coating**

- Silicone Dioxide/Titanium Dioxide coating reacts with the sun’s UV rays to decompose surface organic dirt before rinsing away with the next shower of rain, thereby reducing cleaning frequency.
- The coating also makes the glass surface smoother, so water disperses evenly, sheets off and evaporates quickly; thereby minimising water spotting on the pane.

**New Zealand Standard 4223.4**

- Laminated glass (standard) must be used for skylights installed 5m or more above floor level.

**Benefits:**
- UV Harmful rays block approx 99%
- Noise reduction factor 32 decibels
- WERS rating 5 stars
- Double layer of Low-E³ coating.

**Smart indoor climate control**

A healthier indoor climate. Automatically!

VELUX ACTIVE

Smart sensor based operation of your VELUX skylights and blinds.

with NETATMO

VELUX ACTIVE with NETATMO requires an iPhone or iPad, with iOS 9.0 or later. Android: Requires Android 5.0 and higher with access to Google Play.

See page 5.
Pitched roof Skylights

Sun Tunnels and Roof Windows

**TWF** Flexible

**TWR** Rigid

**TCR** For flat roofs

**GGU** White polyurethane finish

Blinds & Flashings page 12/13

Price list page 14/15
Solar-powered Skylight

- Solar panel mounted below the skylight provides all the power needed to operate the skylight.
- Rain sensor automatically closes skylight with on-set of rain.
- Battery power negates power surges and blackouts.
- Easy to install, no need for electrical wiring.

Automatic sensor-based ventilation*

*Requires VELUX ACTIVE – sold separately (Page 5)
VSS
Solar-powered
The ultimate skylight that provides abundant daylight and controllable ventilation. Features a solar panel that captures available daylight to recharge a highly efficient, concealed battery-powered operator and control system.
- Wireless installation. No electrician required.
- White painted interior timber frame and sash.
- Outer aluminium cappings (grey).
- Smooth profile sits lower in the roof, does not obstruct the roofline.
- Available in 7 sizes.
- Wall-mounted keypad.
- Rain sensor automatically closes the skylight when rain is detected.
- High Performance double glazing with NEAT™ outer coating: reduces cleaning frequency.
- Includes removable insect screen.
- Flashings to be ordered separately.

Also available
VELUX ACTIVE indoor climate control (sold separately)
- Sensor-based ventilation: Smart sensors continuously monitor temperature, humidity and CO₂ levels and open or close your skylights accordingly.
- Stay in control: Use the app to operate your skylights and blinds using your smartphone.

VCS
Solar-powered
The ultimate flat roof skylight that provides abundant daylight and controllable ventilation. Features a solar panel that captures available daylight to recharge a highly efficient, concealed battery-powered operator and control system.
- Wireless installation. No electrician required.
- Maintenance Free – White PVC interior frame for a tough, hard wearing interior finish.
- Outer aluminium cappings (grey).
- Available in 6 sizes.
- Wall-mounted keypad.
- Rain sensor automatically closes the skylight when rain is detected.
- High Performance double glazing with NEAT™ outercoating: reduces cleaning frequency.
- Includes removable insect screen.
- Requires custom-made flashing (not supplied by VELUX).

See installation preparation guide on page 9.
Healthy daylight, fresh air and sky views
VS
Manually operated
Provides the comfort and energy savings of free daylight and natural ventilation.
- White painted interior timber frame and sash.
- Outer aluminium cappings (grey).
- Operated by winder handle for within-reach situations or by rod for out-of-reach use. Sold separately.
- Smooth profile sits lower in the roof, does not obstruct the roofline.
- Available in 7 sizes.
- High Performance double glazing as standard, with NEAT™ outer coating: reduces cleaning frequency.
- Includes removable insect screen.
- Flashings to be ordered separately.

VCM
Manually operated
Cost effective solution for natural ventilation in flat roofs.
- Maintenance free - White PVC interior frame for a tough interior finish.
- Outer aluminium cappings (grey).
- Operated by winder handle for within-reach situations or by rod for out-of-reach use. Sold separately.
- Available in 6 sizes.
- High Performance double glazing as standard, with NEAT™ outer coating: reduces cleaning frequency.
- Includes removable insect screen.
- Requires custom-made flashing (not supplied by VELUX).

See installation preparation guide on page 9.

Blinds for VS
- Solar-Powered Honeycomb – FSCH
- Solar-Powered Blackout – DSH
Includes wireless, wall-mounted keypad.
- All blinds are available in white. • Sold separately.
- Easy to fit using the VELUX [Pick & Click™] System.

Manual control options VS (Sold separately)
- Winder handle for operating within-reach.
- Telescopic rod control for out-of-reach situations. (145cm in length, extendable up to 285cm.)

Blinds for VCM
- Solar-Powered Blackout – DSC
Includes wireless, wall-mounted keypad.
- All blinds are available in white. • Sold separately.
- Easy to fit using the VELUX [Pick & Click™] System.

Manual control options VCM (Sold separately)
- Winder handle for operating within-reach.
- Telescopic rod control for out-of-reach situations. (145cm in length, extendable up to 285cm.)

NEW
Outstanding daylight provision
where extra ventilation is not required
FS

Fixed (non-opening)

Cost effective for creating light-filled rooms where adequate ventilation already exists. Energy efficient glazing and the use of blinds ensures heat transference is minimised.

- White painted interior timber frame.
- Outer aluminium cappings (grey).
- Flashings to be ordered separately.
- High Performance double glazing with NEAT™ coating on outer pane: reduces cleaning frequency.
- Smooth profile sits lower in the roof, does not obstruct the roofline.
- Available in 8 sizes.

Technical Performance (complete skylight)

- R-value: 0.49
- Solar Heat Gain Co-efficient: 0.26

Hailstone Test

VELUX Simulated Tests
ASTM E822-2009

WERS max 5 stars
(summer rating)

NZ Standards
NZS4223.4 AS4285
NZS3604 NZS1170

FCM

Fixed (non-opening)

The brilliantly simple FCM flat roof skylight incorporates the VELUX High Performance double glazed, laminated unit and an all-metal exterior frame.

- High performance double glazing with NEAT™ coating on outer pane: reduces cleaning frequency.
- Approx 99% UV Block.
- Available in 8 sizes.
- Maintenance-free anodized heavy-gauge aluminium frame.
- Requires custom-made flashing (not supplied by VELUX).

Technical Performance (complete skylight)

- R-value: 0.44
- Solar Heat Gain Co-efficient: 0.27

Hailstone Test

VELUX Simulated Tests
ASTM E822-2009

WERS max 5 stars
(summer rating)

NZ Standards

NZS3604 NZS1170

Blinds for FS

- Solar-powered Honeycomb – FSCD
- Solar-powered Blackout – DSC

Includes wireless, wall-mounted keypad.

- Manual Honeycomb – FHCD

Requires ZXT 200 rod control for out-of-reach (sold separately).

- All blinds are available in white. • Sold separately.
- Easy to fit using the VELUX [Pick & Click] System.

* For roofs below 15° pitch, FS skylights need to be raised to 15° and custom flashed. VELUX can assist with technical advice and drawings.

** The FCM is watertight for pitches between 0-60°, though raising the installation pitch to 10° may be preferred for the best aesthetic appearance. Below this pitch you are likely to experience water ponding on the glass.

† R-value (m² K/W) and SHGC data based on NFRC simulations at 90° installation pitch (FS/FCM nominal skylight size 1200mm x 1200mm).
Transform wasted attic space into fantastic loft living
Designed to provide natural light into corridors, stairwells, powder rooms and cupboards; where installation of a VELUX Skylight is not possible.

GGU
Centre-pivot roof window
Put fresh air at your fingertips with a centre-pivot VELUX Roof Window. Easy to operate. Ideal for within-reach attic situations.

- Wooden core encased in moisture-resistant white polyurethane.
- A short pull on the top control bar allows filtered background ventilation even while the window remains shut.
- A second pull on the control bar allows the window to rotate for maximum ventilation – and up to 180° for cleaning the outer pane from inside the room.
- Flashings to be ordered separately.
- Available in 7 sizes.
- Laminated double glazing as standard.
- Noise reduction 34 decibels.

SUN TUNNELS
VELUX Sun Tunnels feature a range of improvements that make installation faster and easier. Tube assembly is simple so little time is spent in the roof cavity.

Rigid Sun Tunnels suit roof spaces with minimal obstructions. They have a highly reflective shaft to achieve maximum light output. Flexible Sun Tunnels can be used when obstructions prevent the use of Rigid Sun Tunnels.

Flexible Sun Tunnel (TWF 0K14)
- Flexi Loc quick assembly system.
- 4mm toughened glass.
- Dual-layered ceiling diffuser.
- 1500mm long, 350mm diameter.
- Minimum distance from ceiling to roof space 0.4m.

Rigid Sun Tunnel (TWR 0K14)
- Flexi Loc quick assembly system.
- 4mm toughened glass.
- Dual-layered ceiling diffuser.
- 1700mm long, 350mm diameter.
- Extendable to 6000mm using ZTR extensions.
- Minimum distance from ceiling to roof space 0.9m.

Low-pitch Rigid Sun Tunnel (TCR 014)
- Double-glazed diffuser, rigid tube and stylish curb-mounted module.
- 1150mm long, 350mm diameter.
- Extendable to 6000mm using ZTR extensions.
- Custom-made flashing required (not supplied by VELUX).

Blinds for GGU
Manual Blackout – DKL
For complete room darkening
- All blinds are available in white. Sold separately.
- Easy to fit using the VELUX Pick & Click® System.

* For roofs below 15° pitch, roof windows need to be raised to 15° and custom flashed. VELUX can assist with technical advice and drawings.
† R-value (m² K/W) and SHGC calculated according to EN 14351-1:2006 + A2:2016 (window size 1140mm x 1180mm).
BLINDS – effective light control

Tailor-made to fit perfectly to each size of Skylight or Roof Window, VELUX Blinds are easy to install and are supplied with aluminium side channels that allow the blind to be positioned at any point down the window.

Blackout blinds

Provide complete room darkening. Manual or solar powered versions available.
- Blind can be stopped at any position.
- Reduce light by approx 100%.
- Available in white only.

Honeycomb blinds

A stylish and modern blind providing protection from heat and glare while providing a near complete blockout from light. Manual or solar powered versions available.
- Honeycomb structured material.
- Reduce light by approx 95%.
- Available in white only.

The innovative VELUX Pick & Click!® system makes installing our blinds a snap! Installation is simple if skylight is within easy reach.

* Solar powered blinds include wireless wall-mounted keypad.
* Accessory Tray ZZ2 199 required to fit blinds to FCM.

NB: VELUX recommends retracting blinds during windy conditions if skylight is open.
Clever design

The unique VELUX top flashing allows for a lower installed height. The top flashing element is a one-piece section that overlaps the top of, and diverts water around, the skylight or roof window.

Flashings are available for skylights and roof windows when installed in roofs from 15° - 90°.

Low-pitch skylights require custom made flashings (not supplied by VELUX).

Precision-made Flashings

Safe, effective rainwater drainage

The unique construction of VELUX flashings ensures safe drainage of rainwater coming from the roof above the window. Because the roofing material covers both top and sides, VELUX flashings are largely unobtrusive. To harmonise even further with the roofing material, they are available in standard grey aluminium.

EDW flashing – for metal or tile roofing. e.g. corrugate, tile

- Flashing for single skylight or roof window.
- Designed for roof pitches from 15° to 90°.
  For roofs below 15° create pitch-up and use custom made flashing (not supplied by VELUX).

EDL flashing – for flat profile roofing material. e.g. shingle, slate

- Flashing for single skylight or roof window.
- Designed for roof pitches from 15° to 90°.
  For roofs below 15° create pitch-up and use custom made flashing (not supplied by VELUX).

EKW combi flashing – for metal or tile roofing. e.g. corrugate, tile

- Flashing for combination of multiple skylights or roof windows.
- Can be used to combine units vertically or horizontally.
- Designed for roof pitches from 15° to 90°
  Contact VELUX when installing VSS above/below combination due to positioning of solar panel.

New Flashings do not fit VELUX Skylights manufactured prior to March 2010/VELUX Roof Windows manufactured prior to March 2014 and must be ordered accordingly.
