The right blinds and shutters to go with the best roof windows

Whether you want to soften incoming daylight or block it out completely, our extensive range of blinds and shutters can offer you the ideal solution to suit your home and daylight control needs. Available in a wide array of styles and colours, you can be sure you will find the right VELUX blind or shutter for your home.

Many of our blinds also come in electric or solar powered operation, meaning with the use of a simple wall switch you can easily take control of the amount of daylight entering your space.
Why choose VELUX?

We manufacture the largest range of roof window blinds and shutters on the market, so you’ll be spoilt for choice. VELUX blinds and shutters are made especially for VELUX roof windows. They’re easy to fit and made for long-lasting and reliable performance.

The perfect blind for you
Controlling the amount of warmth and daylight in your home is key to achieving the perfect indoor environment. Your VELUX blinds are an important part of getting your indoor climate just right, giving you more flexibility and control over heat and light. From keeping your bedroom warm on chilly nights, to stopping your extension getting too warm on a sunny day.

A collection of colours
Whether you need light control, heat protection, a sophisticated look or a splash of colour, you are sure to find the right VELUX blind for your needs. Simply choose a great selection of colours and patterns that complement your room. From hidden cords and slim designs and ÖKO-TEX® fabrics, our blinds have quality built in.

Comfort and convenience
You can choose from manual, solar powered or electric operation. Solar powered blinds are for solar powered VELUX INTEGRA® or manual VELUX roof windows and electric blinds are for VELUX INTEGRA® electric roof windows.

Smart indoor climate control
With smart, sensor-based operation, VELUX ACTIVE works together with your VELUX INTEGRA® electric, or solar roof windows, blinds and shutters.

It’s all in the details
Our high performance blinds and shutters are built to last. They are rigorously tested to ensure flawless operation even after years of everyday use and exposure to the sunlight. For generations, VELUX engineers and designers have been perfecting our products and patented solutions. That’s why VELUX blinds and shutters are always the best choice for your VELUX roof windows.

All our VELUX blinds feature the unique Pick&Click!™ mounting system. This patented VELUX installation method means they can be fitted in minutes. No matter what type of VELUX roof window you have – large or small, old or new – all our blinds will fit flawlessly every time.

Safety and security
The child-safe cordonless design* featured in VELUX blinds eliminates dangling cords to improve safety in the home. ÖKO-TEX® certified textiles on blackout blinds ensure no harmful substances are used.

See p9 for details.

Improving your home’s indoor climate

Your VELUX roof windows bring warmth and daylight into your home. Controlling these elements with the help of VELUX blinds and shutters is key to achieving an ideal indoor climate.

VELUX blinds and shutters provide extra insulation, daylight control and heat protection. In this way they can reduce your home’s energy consumption by minimising heat loss during the winter and heat gain on a hot, sunny day. With VELUX INTEGRA® solar or electric powered operation, you get the added convenience of a pre-paired wall switch to open and close easily.

**External blinds and shutters**

**Awning blinds**
- VELUX awning blinds control how much heat and light enter your home.

**Roller shutters**
- Roller blinds can be used to keep out the cold.
- Offers total blackout reducing solar heating by up to 94%.

**Internal blinds**

**Blackout**
- Blackout your bedroom for a great night’s sleep. Choose blackout energy blinds to reduce heat loss by up to 25%.*

**Light adjustment**
- Diffuse daylight rather than black it out completely.
- Choose VELUX roller blinds as a simple, stylish solution to soften incoming light and achieve basic privacy.

**Protect your home against the heat**

 Passive heating from the sun is a major benefit on a cold day, but can lead to overheating in warmer months. VELUX roller shutters can reduce the heat impact of the sun by up to 94%*.

**Protect your home against heat loss**

 Although VELUX roof windows are well insulated, interior VELUX blackout energy blinds can further reduce heat loss by up to 25%.* This extra insulation is especially important on a chilly night during the winter months.

---

* The technical values of various accessories are determined through standardized tests and calculations, all in compliance with the international standards EN ISO 12567-2, EN 13363-2 and ISO 15099. Effect depends on type of roof window and glazing. Please note that when blinds are rolled down the risk of condensation is increased. Therefore rolling up the blinds after use and ventilating regularly is recommended.
VELUX INTEGRA®
solar powered and electric
blinds and shutters

Adjust daylight
and privacy
in seconds

Enjoy more comfort with VELUX INTEGRA® blinds and shutters. Designed to work in harmony with your VELUX INTEGRA® solar powered and electric roof windows, these blinds are perfect for adjusting daylight in out-of-reach areas. VELUX offers a wide range of blinds for blackout, heat protection, insulation, privacy and decoration. All VELUX INTEGRA® solar and electric blinds come with a pre-paired wall switch for easy operation.

VELUX ACTIVE
For a smarter healthier home.

According to recent studies*, 90% of our time is spent inside, so maintaining a good indoor environment is more important than ever. We have partnered with revolutionary smart home company NETATMO to bring you a smart way to control your home’s indoor climate.

Smart sensors measure temperature, CO₂ and humidity levels. Once your chosen parameters have been set, the system reacts, and operates your VELUX INTEGRA® products without you having to do a thing – adjusting them automatically to provide the right level of ventilation, light and heat.

Sensor-based ventilation
Smart sensors monitor temperature, humidity and CO₂ levels and operate your roof windows accordingly for a healthier indoor climate.

Smart heat protection
Proactively closes any VELUX INTEGRA® blinds, awnings and shutters based on local weather forecast information, e.g. an increase in temperature.

Easy installation
You can easily set up and install VELUX ACTIVE without any professional assistance, however we’re always on standby if you need any further advice.

The kit includes VELUX ACTIVE indoor climate sensor, VELUX ACTIVE departure switch and VELUX ACTIVE gateway.

New lower prices!
Replace and upgrade. It’s just so easy!

Founded in 1941, VELUX is the original roof window manufacturer, giving us decades of experience. You can still order blinds that fit almost every generation of VELUX roof window. So whether you’re preparing for a renovation, conversion, relocation or would simply just like to change the look and feel of your room, a VELUX blind is the only choice for a reliable, quality operation.

You can even change your blinds when you change the function of the room to improve comfort for sleeping, playing, cooking, entertaining and much more!

VELUX blinds come in such a wide variety of beautiful designs and patterns that you’re sure to find the perfect style upgrade for your space.

Fitted in minutes

You can fit a new VELUX blind to a VELUX roof window of any age or size. That’s because all our roof windows feature the unique Pick&Click!™ mounting system, which means your blind can be fitted in minutes.

Time for an upgrade

For out-of-reach roof windows why not upgrade to a solar powered version, which includes wall switch operation, suitable for VELUX INTEGRA® and manual windows.

Quality as standard

They may be quick to install, but they’re made to last. All VELUX blinds come with a 3 year guarantee, excluding DBL blackout blinds which have a 2 year guarantee.

Made to measure – find your roof window code on the sash

When is it time for a replacement?

• Renovation
• Redecoration
• Smart home upgrade
• Energy savings
• More flexibility
• Wear and tear

VELUX replacement blinds
available from
€66.42

Replace your VELUX blinds in minutes
How to select and install your blinds

Selecting your VELUX blinds and shutters is easy. Just follow our simple five step process to get the perfect solution for you.

1. Find your window type and size
When you open your VELUX roof window you will find a data plate on top, either on the right or left hand side. Data plates differ in appearance depending on the age of your VELUX roof window.

2. Select your blind type
You can choose an interior and/or exterior VELUX blind or shutter that meets your needs including blackout, light adjustment, heat control, or insect protection. Once you’ve selected your blind, see the relevant product pages for the code and price.

3. Select operation method
There are three operation methods to choose from. Manual blinds are a good option when your roof windows are within reach, while our electric or solar powered blinds are ideal for out-of-reach areas.

4. Colour choice
VELUX blinds are available in a wide range of colours and designs. Each colour and design option has a unique code. Add this code on to your blind type and size when ordering your blinds.

5. Installation
VELUX blinds and shutters are made to fit your VELUX roof windows perfectly. Our unique Pick&Click™ system means you can fit them in minutes. New VELUX roof windows are fitted with pre-installed brackets to ease installation and to ensure a perfect fit every time.
## Product overview

With our extensive range of blinds and shutters, you can be sure to find the right solution for you. Select the perfect blind for your home and see the product pages for prices and colour options.

---

The following blinds are also available for flat roof windows.

**Available with a range of operation methods, see page 36 for details.**
Blackout blinds
The ideal bedroom blind to help you get a restful night’s sleep

The VELUX blackout blind offers almost complete blackout. It is ideal in bedrooms, where you need complete light control to get a good night’s sleep or a restful nap during the day.

• Total blackout
VELUX blackout blind fabric offers 99.9% blackout – the best on the market.

• Stepless positioning
Create your perfect lighting with our slimline design that allows you to find the ideal blind position.

• Wide range of colours and styles
Choose from 24 different colours and designs. There are also three different operation methods to choose from, so you can find the perfect blind, whatever your needs.

Easily control the light in any room, even in the middle of the day.

Order your VELUX blinds and shutters online at veluxshop.ie

The VELUX replacement blackout blind is a perfect solution for roof windows manufactured before 2013. Ideal if you simply want to replace your old blind without further design or functional choices.

• Essential blackout effect.
• Stepless positioning.
• Only available for VELUX roof windows manufactured before 2013.
• Available in 4 colours and comes with a 2 year guarantee.

Check your data plate to find the type and size of your roof window model.
Duo blackout blinds
The right balance, night or day

The VELUX duo blackout blind is a blackout blind and pleated blind in one. It offers the best of both worlds; blackout at any time and softly diffused natural daylight all day.

- **Stepless positioning**
  Create your perfect lighting with the ideal blinds positioning.

- **Wide range of colours and styles**
  Choose from 24 different blackout blind colours and designs.

**Pick & Click?**

Choose between blackout or softly diffused daylight, any time of the day.

The duo blackout blind is available in all the above blackout blind colours in combination with a white pleated blind (1016).

Blackout energy blinds
Control daylight and insulate your home

The unique design of VELUX blackout energy blinds provides up to 25% insulation all year round and can be positioned anywhere on the window.

Blackout energy blinds

• Fully adjustable
Manually operated flying blackout energy blinds can be adjusted from the top and bottom of your VELUX roof window, allowing you to adjust as needed throughout the day.

Position manual VELUX blackout energy blinds anywhere on your VELUX roof window.

Light-dimming energy blinds

• Solar powered or electric operation
The VELUX INTEGRA® double pleated energy blind fabric offers both blackout and an extra insulation effect.

• Insulation at the touch of a button
Choose solar or electric operation for remote control, ideal for out-of-reach areas.

• Control ventilation and light
VELUX INTEGRA® solar light-dimming energy blinds are perfect for manual or solar powered roof windows and VELUX INTEGRA® electric light-dimming energy blinds are perfect for mains powered VELUX INTEGRA® roof windows.

Check your data plate to find the type and size of your roof window model.

© Disney. © Disney/Pixar. Based on the Winnie the Pooh works by A. A. Milne and E. H. Shepard.
VELUX roller blinds are simple and stylish ways to soften incoming daylight and provide privacy. The aluminium side channels allow the blind to be placed anywhere on the roof window allowing you to control the amount of daylight filling the room.

**Adjust as you need**
VELUX roller blinds can be placed anywhere on the roof window so you can adjust the amount of incoming daylight throughout the day, making them perfect for living rooms.

**Find the perfect design for your interior**
Whether you are looking to add a splash of colour to your room or something more neutral for a modern interior, with 15 colours and designs, you’ll find the perfect roller blind for your living space.

---

**Check your data plate to find the type and size of your roof window model.**

Veriff your data plate to find the type and size of your roof window model.

All roller blinds have a delivery time of up to 7 days. Electrically powered products combined with a manual VELUX roof window require a control unit KUX 110.

Delivery time is in working days from receipt of orders placed before 11.30am.

---

**Order your VELUX blinds and shutters online at veluxshop.ie**
VELUX pleated blinds are an elegant way to provide privacy whilst bathing your room in a pleasant, soft light. You can adjust the amount of light coming in whilst still enjoying your view.

**Pleated blinds**

*Softly diffused daylight for any indoor space*

- **Total flexibility**
  Manually operated flying pleated blinds can be adjusted from the top and bottom of your VELUX roof window. This allows positioning of the blind to suit every individual room no matter what direction it faces, or time of day it is.

- **Manage daylight in out-of-reach areas**
  Choose VELUX INTEGRA® electric or solar pleated blinds and diffuse sunlight at the touch of a button. Designed to work with your VELUX INTEGRA® roof windows, these blinds are perfect for out-of-reach areas such as a living room or dining room extension.

---

**Pleated blinds**

*Upgrade to solar powered for an additional €110.70.*

**Check your data plate to find the type and size of your roof window model.**

**Electrically powered products combined with a manual VELUX roof window require a control unit KUX 110.**

3. Delivery time is in working days from receipt of orders placed before 11:30 am.
Venetian blinds
The best solution for bathrooms and kitchens

VELUX roof windows fill any room with natural daylight and plenty of fresh air. Areas like kitchens and bathrooms can generate high levels of moisture and benefit from added ventilation. VELUX Venetian blinds are an ideal solution for these areas as they are made from aluminium, making them easy to maintain.

• Cordless operation
Manually operated Venetian blinds are very easy to use. Unlike traditional Venetian blinds, the VELUX Venetian blind is cordless. You therefore adjust the blind using a control bar attached to the bottom of the blind.

• Moisture resistant and easy-to-clean
These moisture resistant blinds are easy-to-clean and come in 9 different colours to suit your personal style and decor.

• Privacy and style
With VELUX Venetian blinds you can have both privacy and light. Just tilt the slats in any direction to adjust the angle of the light and achieve the right amount of privacy.

The slats can be tilted separate to the blind moving from top to bottom.

Order your VELUX blinds and shutters online at veluxshop.ie

Check your data plate to find the type and size of your roof window model.

VELUX blinds and shutters

Roman blinds

Versatile and stylish

Enjoy a wide range of decorative solutions with VELUX Roman blinds. Explore the potential of beautiful fabrics and be inspired by the soft styling effects that make this collection refined and original. Should you want to add more personality to your room, VELUX Roman blinds come in a variety of colours and patterns.

• Versatile
The clever design of our Roman blinds mean you can easily swap the fabric in a matter of minutes – a perfect and easy way to update the room’s interior.

• Soft lighting effects
With flexible and stepless positioning, block direct sunlight and give your room a gentle glow as the Roman blinds softly diffuse light into the room.

Check your data plate to find the type and size of your roof window model.

Keep your options open with a blind you can easily swap over in a matter of minutes.
Awnings and shutters
Exterior blinds for heat protection

Roof windows offer twice the amount of daylight than vertical windows of the same size*. With all this added daylight however, it’s important to be able to protect your space from added heat from the sun.

Take a look at our exterior heat protection sun screening products to help add comfort to your home.

* Source: Johnsen et al, 2006

Awnings and shutters

Awning blinds
VELUX awning blinds provide solar heat reduction whilst ensuring you can maintain the view through your roof window.

**VELUX roller shutter SSL is only compatible with VELUX roof windows produced after 2002.**

**VELUX blinds and shutters**
Flat roof blinds
Heat and light control for flat roof homes

To control the amount of incoming light or to reduce the indoor temperature in the summer – there are some great options to complete your VELUX flat roof windows.

Pleated blind
Perfect for softening incoming daylight and adding a decorative touch, pleated blinds open and close with a handy pre-paired wall switch.
- Softly diffuses incoming light.
- Enables privacy.

Light-dimming energy blind
The light-dimming, double-pleated blind with aluminium coating between the cloth layers improves insulation and increases indoor comfort. Please note that the solar blind is suitable for flat roof windows with a clear dome only.
- Blackout effect.
- Protects against cold from the outside.
- Enables privacy.

MSG – Solar awning blind
Installed between the window and the dome, transparent awning blinds are solar powered and operated by remote control. They keep the indoor temperature comfortable by filtering the strong rays of the sun and easy to install.
- Provides up to 77% effective heat protection.
-Dims daylight and prevents direct glare.
- Increases privacy.

MSG awning blind is not compatible with a VELUX flat glass rooflight.

Delivery time is in working days from receipt of orders placed before 11.30am.

All flat roof blinds have delivery time of up to 7 days.

Order your VELUX blinds and shutters online at veluxshop.ie
VELUX insect screens let you enjoy fresh air – without any unwanted visitors. They are simple to operate, and they fit any VELUX roof window. Insect screens stow neatly away in the slim aluminium top casing when not in use.

- 100% insect-proof net fabric.
- Durable, transparent fabric – does not obstruct your view.
- Improved visibility – lets you enjoy more daylight.
- Mesh ensures perfect airflow.

Please note: Insect screens are mounted on the wall and not the window frame. You therefore need to measure your window opening to get an insect screen in the correct size.
