VELUX blinds and shutters

VELUX
blinds and shutters

A rainbow of colours
Whether you need light control, heat protection, a sophisticated look or a splash of colour, you are sure to find the right blind for your needs. Simply choose from our wide range of blinds and select a colour or pattern that complements your room. From hidden cords and slim designs and OEKO-TEX® fabrics, our blinds have quality built in.

Comfort and convenience
You can choose from manual, electric or solar powered operation. Electric blinds are for VELUX INTEGRA® electric roof windows and solar blinds are for solar or manual roof windows.

Smart indoor climate control
With smart, sensor-based operation, VELUX ACTIVE works together with your VELUX INTEGRA® electric or solar roof windows, blinds and shutters.

Just a Pick&Click!™ away
All our VELUX blinds feature the unique Pick&Click!™ mounting system. This patented VELUX installation method means they can be fitted in minutes. No matter what type of VELUX roof window you have – large or small, old or new – all our blinds will fit flawlessly every time.

Safety and security
The child-safe cordless design* featured in VELUX blinds eliminates dangling cords to improve safety in the home. OEKO-TEX® certified textiles on blackout blinds ensure no harmful substances are used.

The best roof windows, the right blinds and shutters
We manufacture the largest range of roof window blinds and shutters on the market, so you’ll be spoilt for choice. VELUX blinds and shutters are made especially for VELUX roof windows. They’re easy to fit and made for long-lasting and reliable performance.

The perfect blind for you
Controlling the amount of warmth and daylight in your home is key for enjoying your ideal environment and optimum comfort. Your VELUX blinds are an important part of getting your indoor climate just right, giving you more flexibility and control over heat and light. From keeping your bedroom warm on chilly nights, to stopping your extension getting too warm on a sunny day.

A rainbow of colours
Whether you need light control, heat protection, a sophisticated look or a splash of colour, you are sure to find the right blind for your needs. Simply choose from our wide range of blinds and select a colour or pattern that complements your room. From hidden cords and slim designs and OEKO-TEX® fabrics, our blinds have quality built in.

Comfort and convenience
You can choose from manual, electric or solar powered operation. Electric blinds are for VELUX INTEGRA® electric roof windows and solar blinds are for solar or manual roof windows.

Smart indoor climate control
With smart, sensor-based operation, VELUX ACTIVE works together with your VELUX INTEGRA® electric or solar roof windows, blinds and shutters.

See page 9 for details.

It’s all in the details
Our high performance, award-winning blinds and shutters are built to last. They are rigorously tested to ensure flawless operation even after years of everyday use and exposure to the elements. For generations, VELUX engineers and designers have been perfecting our products and patented solutions. That’s why VELUX blinds and shutters are the best choice for your VELUX roof windows.

Improving your home’s indoor climate

Your VELUX roof windows bring warmth and light into your home. Controlling these elements with the help of VELUX blinds and shutters is key to achieving an ideal indoor climate.

VELUX blinds and shutters provide extra insulation, daylight control and heat protection. In this way they can reduce your home’s energy consumption by minimising heat loss during the winter and heat gain on a hot, sunny day. With VELUX INTEGRA® solar or electric powered operation, you get the added convenience of a remote control to open and close easily.

Internal blinds

**Blackout**
- Blackout your bedroom for a great night’s sleep. Choose blackout energy blinds to reduce heat loss by up to 25%.*

**Light adjustment**
- Diffuse daylight rather than block it out completely.
  - Choose VELUX roller blinds as a simple, stylish solution to soften incoming light and achieve basic privacy.

External blinds and shutters

**Awnning blinds**
- VELUX awning blinds control how much heat and light enters your home.

**Roller shutters**
- Roller blinds can be used to keep out the cold.
- Offers total blackout of daylight, reducing solar heating by up to 94%.

*  The technical values of various accessories are determined through standardized tests and calculations, all in compliance with the international standards EN ISO 12567-2, EN 13363-2 and ISO 15099. Effect depends on type of roof window and glazing.

Please note that when blinds are rolled down the risk of condensation is increased. Therefore rolling up the blind after use and ventilating regularly is recommended.

Protect your home against the heat

Passive heating from the sun is a major benefit on a cold day, but can lead to overheating in warmer months. VELUX roller shutters can reduce the heat impact of the sun by up to 94%.

Protect your home against heat loss

Although VELUX roof windows are well insulated, interior VELUX blackout energy blinds can further reduce heat loss by up to 25%. This extra insulation is especially important on a chilly night during the winter months.

See how you can control your indoor climate automatically on page 9
NEW!
VELUX ACTIVE
For a smarter healthier home.

90% of our time is spent inside, so maintaining a good indoor environment is more important than ever. We have partnered with revolutionary smart home company NETATMO to bring you a brand new way to control your home’s indoor climate.

Smart sensors measure temperature, CO₂ and humidity levels, then the system reacts to operate your VELUX INTEGRA® products – adjusting them automatically to provide the right level of ventilation, light and heat. VELUX ACTIVE is the smarter way to achieve a healthier indoor climate.

VELUX ACTIVE includes VELUX ACTIVE indoor climate sensor, VELUX ACTIVE departure switch and VELUX ACTIVE gateway.

VELUX ACTIVE includes VELUX ACTIVE and blinds.

Sensor-based ventilation
Smart sensors monitor temperature, humidity and CO₂ levels and operate your roof windows accordingly for a healthier indoor climate.

Smart heat protection
Proactively closes any VELUX INTEGRA® shutters and awnings based on local weather forecast information, e.g. an increase in temperature.

Easy installation
You can easily set up and install VELUX ACTIVE without any professional assistance.

VELUX ACTIVE includes VELUX ACTIVE indoor climate sensor, VELUX ACTIVE departure switch and VELUX ACTIVE gateway.

Adjust daylight and privacy in seconds

Enjoy more comfort with remote controlled blinds and shutters. Designed to work in harmony with your VELUX INTEGRA® electric and solar roof windows, these blinds are perfect for adjusting daylight in out-of-reach areas. VELUX offers a wide range of blinds for heat protection, insulation, privacy, decoration and blackout.

How to select and install your blinds

Selecting your VELUX blinds and shutters is easy. Just follow our simple five step process to get the perfect solution for you.

1. Find your window type and size
   When you open your VELUX roof window you will find a data plate on top, either on the right or left hand side. Data plates differ in appearance depending on the age of your VELUX roof window. Find yours from the examples to the right. This will give you the correct type and size of your window model.

2. Select your blind type
   You can choose an interior and/or exterior VELUX blind or shutter that meets your needs including blackout, light adjustment, heat control, or insect protection. Once you've selected your blind, see the relevant product pages for the code and price.

3. Select operation method
   There are three operation methods to choose from. Manual blinds are a good option when your roof windows are within reach, while our electric or solar powered blinds are ideal for out-of-reach areas.

4. Colour choice
   VELUX blinds are available in a wide range of colours and designs. Each colour and design option has a unique code. Add this code on to your blind type and size when ordering your blinds.

5. Installation
   VELUX blinds and shutters are made to fit your VELUX roof windows perfectly. Our unique Pick&Click!™ system means you can fit them in minutes. New VELUX roof windows are fitted with pre-installed brackets to ease installation and to ensure a perfect fit every time.
Product overview

With our extensive range of blinds and shutters, you can be sure to find the right solution for you. Select the perfect blind for your home and see the product pages for prices and colour options.

Disney & VELUX Goodnight Collection

Making bedtime full of wonder

The new Disney & VELUX Goodnight Collection is our latest range of blackout blinds designed for kids. Inspired by their favourite characters from Frozen, Cars and Winnie the Pooh, night time has never been so much fun.

Our themed blinds will spark their imagination while they play during the day and because the fabric offers total blackout, they’ll enjoy restful sleep too.

- 99.9% blackout – the best on the market!
- Installs in minutes with the unique VELUX Pick&Click™ system
- OEKO-TEX® certified – no harmful substances

Please note: As with all fabrics, the precise colours may vary from the printed samples. Designs shown for illustration purposes only. The blind may differ due to the fact that each design is scaled to match the specific window size.

© Disney. © Disney/Pixar. © Disney. Based on the Winnie the Pooh works by A. A. Milne and E. H. Shepard.
Even the most epic battles must come to an end and when they do, our hero needs quality rest. Let your Jedi drift off quickly and continue their adventures in a galaxy far, far away in a bedroom darkened by VELUX blackout blinds.

- **A good night’s sleep**
Fibers offer total blackout from sun and moonlight allowing for a peaceful night’s sleep.

- **Safety and security**
The child-safe* cordless design featured in VELUX blinds eliminates dangling cords to improve safety in the home. OEKO-TEX® certified textiles on blackout blinds ensure no harmful substances are used.

All Disney & VELUX Goodnight Collection and Star Wars & VELUX Galactic Night Collection blinds have a delivery time of up to 8 days.

Delivery time is in working days from receipt of orders placed before 4pm (UK) and 3pm (NI).

VELUX roller blinds are a simple and stylish way to soften incoming daylight and provide privacy. The aluminium side channels allow the blind to be placed anywhere on the roof window allowing you to control the amount of daylight filling the room.

- **Adjust as you need**: VELUX roller blinds can be placed anywhere on the roof window so you can adjust the amount of incoming daylight throughout the day, making them perfect for living rooms.
- **Find the perfect design for your interior**: Whether you are looking to add a splash of colour to your room or something more neutral for a modern interior, with 15 colours and designs, you’ll find the perfect roller blind for your living space.

Pleated blinds

VELUX pleated blinds are an elegant way to provide privacy whilst bathing your room in a pleasant, soft light. They can be positioned anywhere on the roof window and can be controlled from the top and bottom so you can adjust the amount of light coming in while still enjoying the outside view.

- **Total flexibility**
  Manually operated flying pleated blinds can be adjusted from the top and bottom of your VELUX roof window, allowing you to block direct sunlight while allowing in softly diffused daylight at the same time. Perfect for a home office filled with natural daylight.

- **Manage daylight in out-of-reach areas**
  Choose VELUX INTEGRA® electric or solar pleated blinds and diffuse sunlight at the touch of a button. Designed to work with your VELUX INTEGRA® roof windows, these blinds are perfect for out-of-reach areas such as a living room or dining room extension.

**Pleated blinds**

**A home office that works**
VENLUX blinds and shutters

VELUX roof windows fill any room with natural light and fresh air. The extra daylight gives the room a more open, spacious feel and these high moisture areas benefit from added ventilation. As privacy is just as important as sunshine in the bathroom, VELUX Venetian blinds are an ideal addition.

Venetian blinds

Your personal oasis

- Cordless operation
  Manually operated Venetian blinds are very easy to use. Unlike traditional venetian blinds, the VELUX Venetian blind is cordless. You therefore adjust the blind using a control bar attached to the bottom of the blind.

- Moisture resistant and easy-to-clean
  These moisture resistant and cordless controlled blinds are easy-to-clean and come in 9 different colours to suit your personal style and decor.

- Privacy and style
  With VELUX Venetian blinds you can have both privacy and light. Just tilt the slats in any direction to adjust the angle of the light and achieve the right amount of privacy.

Order your VELUX blinds and shutters online at veluxblindsdirect.co.uk

Roman blinds
Versatile and stylish

Get ready to enjoy a wide range of decorative solutions with VELUX Roman blinds. Explore the potential of beautiful fabrics and be inspired by the soft styling effects that make this collection refined and original. Should you want to add more personality to your home office, VELUX Roman blinds come in a variety of colours and patterns.

• Versatile
The clever design of our Roman blinds mean you can easily swap the fabric in a matter of minutes – a perfect and easy way to update the room’s interior.

• Soft lighting effects
With flexible and stepless positioning, block direct sunlight and give your room a gentle glow as the Roman blinds softly diffuse light into the room.

Check your data plate to find the type and size of your roof window model.

Awnings and shutters

You can add twice the daylight* to your extension by combining VELUX roof windows with vertical glazing such as bi-fold doors. With all this added daylight however, it’s important to be able to protect your space from added heat from the sun. Take a look at our exterior heat protection sun screening products to help add comfort to your home.

* Source: Johnsen et al, 2006

Awning blinds

For a cool summer room, VELUX awning blinds provide solar heat reduction whilst ensuring you can maintain the view through your roof window.

• Sun yes, heat no
  Reduce heat by up to 76%.

• Quality

• Easy installation
  Install from the inside in minutes.

Roller shutters

From full daylight to complete blackout, VELUX roller shutters offer you additional energy saving and noise reduction.

• Complete light control
  Keeps out the light and prevents overheating.

• Energy saving
  Provides insulation in cold weather.

• Security and noise reduction
  Provides additional security and protection from the elements.

Combine any external awning blind or roller shutter with an internal VELUX blind see pages 16-33

Check your data plate to find the type and size of your roof window model.

*VELUX roller shutter SML is only compatible with VELUX roof windows produced after 2002.
Flat roof sunscreening

To control the amount of incoming light or to reduce the indoor temperature in the summer – there are some great options to complete your VELUX flat roof window.

Pleated blind
Perfect for softening incoming daylight and adding a decorative touch. Pleated blinds open and close with a handy remote control. They are available in three colours, white (1016), classic sand (1259) and metallic blue (1265).

- Softly diffuses incoming light.
- Enables complete privacy.

Light-dimming energy blind
The light-dimming, double-pleated blind with aluminium coating between the cloth layers improves insulation and increases indoor comfort. The remote controlled electric (FMK) or solar (FSK) blind is available in two colours, black (1047) and white (1045). Please note that the solar blind is suitable for flat roof windows with a clear dome only.

- Blackout effect.
- Protects against cold from the outside.
- Enables complete privacy.

Awning blind
Installed between the window and the dome. Transparent awning blinds are solar powered and operated by remote control. They keep the indoor temperature comfortable by filtering the strong rays of the sun and provide effective heat protection by up to 77%.

- Reduces passive heating by up to 77%.
- Dims daylight and prevents direct glare.
- Enables complete privacy.

* MSG awning blind is not compatible with a VELUX flat glass rooflight.
